Excell Decor is extremely proud to announce the release of our new range of Raex motorised curtain tracks at prices never seen before in the market.

Raex motors are leading the way in modern technology.

**Features:**

- One of the quietest systems on the market
- Innovative clutch system that allows you to start the motor by simply moving the curtain by hand.
- The curtain track can also be manually operated if a power failure was to occur, allowing the home owner to still open or shut the curtains.
- Opening and closing limits are automatically set in the motor's memory after the first open and shut operation.
- Hand held or wall 7 channel transmitters
- Motor has built in radio receiver.

*Please contact our offices for further features on our range.*
